WEBSTER & AVERELLS. JOHN DWIGHT & CO'S SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Fearish Baharatua in its effect—giving coolery a more delicate appearance and flavor; and also or more wholecome—Soda being more congenital to the human patent than Potath. It is more economical than Pearlah Salaratua—s loss quantity being required to produce the same effect. The article is put up in pound papers with tall directions for use.

Also may be found, John Dwight & Co.'s Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It. will soften hard vater. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not lable to rust. Directions for use are printed on each package.

Madison, April 9, 1852.

The Senate ordered to its engressment last even-ing the bill providing for a separate Supreme Court, by an almost unanimous vote. This moraing the bill passed by the following rate: Ayes.—Alban, Bennett, Bowen, Bugh, Conkey Dean, Huebschman, Palmer, Pineiney, Ree Sharpstein, Squites, Wakely, West, Wright—15 Nors.—Prentice, Sterling, Stewart—3.

The Senate also killed, by a tie vote, the bil organizing the 7th judicial circuit. The Assembly passed a very important bil granting to boards of supervisors the power to change the names of persons and towns—to racate town plats, &c, to grant bridge, ferry, and plankroad charters. Should the Senate concur, a very large amount of local business will be kept

at home, where it belongs, and out of the legisla-The select committee to whom was referred the bill providing for a limitation as to the persons voting at school district meetings, de., reported this morning a substitute, which limits the votes to persons over 21 years of age, resident in the district, and either householders, or having paid a rur during the year previous to the meeting. It take contains a section limiting the amount of tax to be voted by them for teachers' waget to a certain sum. This sum was fixed by the House at 15 miles on the Dollar, and in this form the Lift

. The bill reported some weeks since by a comof letting the printing contracts, was passed. It provides for letting all the printing in one contract, thatey of a competent, faithful, sworn officer-a consumpution devoutly to be desired.

The bill providing for encouraging Gen'l Smith in compiling a documentary history or the state,

in complising a documentary history or the state, was pasted by the following vote:

A principal objection to the bill. in the mind

A principal objection to the bill, in the mind of many of the members was, that the advanced age and conecquent infirmity of Gen'l Sunth do, in their opinion, incapacitate him from undergoing the necessary of labor. If, however, he shall be able to go on prompily with the work, there is no doubt that it will be performed in an admirable manner, and the collection made be in every way creditable to the state.

Among the bills reported by committee of the whole, last evening, and acted upon to-day, was one herotofore passed by the Senate, amending see 2 of chapter 133 of the Revised Statutes, so one nerctorore passed by the Revised Statutes, so see 2 of chapter 133 of the Revised Statutes, so use to permit junies, in cases of conviction for murder in the first degree, to say whether the penalty shall be death, or imprisonment for life. Mr. Shokes spoke briefly in its favor, and the Kiouse being in the humor for despatching matters in a hurry, the Lill was ordered to a third reading by 36 to 23 votes. The question coming immediately upon its passage, Mr. Shofter spoke about 3 minutes against it, when the bill passed by the following against it, when the bill passed by the following

Mr. McNaughton moved a reconsideration, and come one else moved to lay that motion on the table, so that the question is still open. From the change produced by the few minutes reflection allowed between the first and second votes, I am confident that the bill will fell to pass. Mr. Shafter rightly characterized it as "a most abominable bill," at oluming, as it does, all distinction between the crimes of murder in the 1st and in the 2d degreen-except so for as the excited feelings of a jury may allow them to make a distinction. No one upon the floor of the House was of sufficiently "towering intellect" to attempt to defend the abomination. One hour's reflection, would have Lilled the bill, I think.

There was rare sport this afternoon for a little while on the "dead head" Lill, "incorporating Double-headed Brown, and providing for two run of san s" The Senate had passed it, leaving the tale, but placing under it a bill to charter a certain Insurance Company, hoping that the House would mused the title. An endeavor was made to have this done, but the majority of the House seemed determined to maintain its dignity, and to have

the Senate look at its bautlin is death.
After a good many vollies of hot shot between 1'.e contending parties, Mr. Ramsey moved to amend the title, by adding the words "on one crank," This was too much for the gravity of the House and the bill was sent back to the Senate in that form, so that they might amend it again if they see

the State Agricultural Society. As it came from the Senate, it contained appropriations of \$100 to each county agricultural Society, but that part was strack out, or rather a bill as above mention ed, was substituted for the Senate bill. The Governor returned this afternoon to the

Senate, the Pox River Improvement Bill, with his objections at length. The objections are parly those which have been often utgod against it, with others which have occurred to the Governor on enamination. The Senate presed the bill again, by the following vote:

Ages—Alban, Bennett, Bowen, Bugh, Conkey, Dean, Palmer, Punckney, Trentice, Sharpeten, Stowart, Wakely, Wright—13, Nove-Huebschmann, Reed, Squire, Stelling,

It is sorreely probable that the bill will obtain a two-third vote in the House. Thinty-nine bills were disposed of in Assembly

But wlether they do so concur, or not, the that it did a year ago, when a similar crusade to concede to others—but as I design never to was preached against the Bank by a " Democratadministration. We then denounced the on--laught as uncalled-for, unnecessary and prejudicial to the public interests; and we should

descric to forfeit the confidence and good opinion, not of our Whig friends only, but of the public at large, if, after taking such ground in 1851, we had abandoued it in 1532, for no other, or better reason than that a Whig Governor now directed the attack. What we held to be wrong and illjulged in Covernor Dawny, we hold to be wrong and ill-judged in Governor Parewers, and so thinking, it is a duty we owe to the Whig party, to the public, to Gov. I have passed the great climacteric of life, and can at the best have but few years to live, and I live but in my children. If I were to consult my own feelings only, and wanted to live a good time, I would kick up a row, and would be more certain in the confusion to get into the Witte House then I am now. But I speak for my children, for my country, and I may say, without profamity, for my God, that I desire peace. For here is the last asylum of liberty; destroy it and where will be its restirg place? The most important measure to preserve it, is economy in the public expenditures. They have increasing in the same proportion for the next quarter of a century, they will amount to two hundred millions—nearly three-fourths of the expense of the British empire, independent of the interest on the public debt. If you don't arrest that enormous increase you will be trined. Its con-sequence will be corruption, with its hydra-head, and all its train of evils, and if they have once began to sap the foundation of republican government, freedom is at an end.

I want to see our country come back to the On motion of Mr. Crocker, the report was taken ip and acted upon by Wards, and that part of the enort relating to the 1st Ward schools, being under consideration, Mr. King moved to amend by transferring Mr-s Springer to the 3rd Ward, and Mics E. S. Palmer to the 1st Ward. After some discussion the motion was lost and that portion of the repeat relating to said First Ward schools aas adopted.

Also that part of the report in reference to the 2nd and 3rd Wards was adopted. And the 4th Ward schools being under considration, Mr. Crocker moved to strike out the name the Washington County Blade speaks of it, in the the ayes and noes being demanded and taken, re-ulted as follows: Ages,—King, McManman, McGarry, Crocker and Wante—5.

N.co.-Hadley, Hathaway, Greenleaf, Church-Powers, Rogers, Day and Mitchell-8. The amendment was lost, and the balance of the report was then approved. Whereupon, on motion of Mr. Hathaway, the

entire report was then unanimously adopted, and edered to be spread at length upon the Journal. Mr. Powers presented a form of a "Teacher's intract," which, on motion, was approved by The account of Mr. Church, of \$490, for work

coils, and if they have once began to sap the foundation of republican government, freedom is at an end.

I want to see our country come back to the simplicity and economy of the days of Jefferson. It is not the money I regard, but its consequences—corruption and other evils, These may seem queer sentiments coming from me, If I did belong to the young and progressive school. I was brought up in the straightest sects of federalism. My father was a federalist—I was one. He was the comper of Washington, and of Hamilton, and othet great men of those times. He loved them while they lived, and loved their memory when dead; and it was his religion to follow the footsteps of Washington wherever they led. It I had lived in those days. I should have done as they did. A purer band of patriots and more honest men never lived. Perennial flowers shall ever blossom on their grares. Those are the men whose principles are my principles. They never put their hands forward to control the future, any more than we can attempt to control it fifty years hence. Since their day, our country has gone on increasing in importance, supassing all belief. We must judge of public affairs for ourselves. I do not like that opponent who says stand fast, and when he enters the ring takes. Washington in his arms, so that you cannot shoot him without. Washington. You have no right to bring Washington here now with his opinions fifty years ago. Standing here and looking forward for my children and my country, there is not that danger now which then existed—there is no danger of a dissolution of the Union. The only danger now is from a consolidation of the States, producing expenditures of an enormous amount which tend to the downfail of republican government. The powers of the general government should never be stretched. Everything possible should be left to the downfail of republican government. a Second Ward School House, was presented and on motion, referred to the Executive Com-On motion, the Board adjourned until the 13th

Flax Seed on Winter-Lilled Wheat.

Mr. Editor :—I perceive by the papers, that good deal of effort is making to direct the at-ention of farmers in Wisconsin to the raising of tention of farmers in Wisconsin to the raising of Flax:

Permit me to state through your paper, that flax seed can be sown with advantage on fields of winter-killed wheat. It should be sown as early in the spring as soon as the ground will permit, (early seeds the best) at the rate of about one-half bushel to the acre—more or less, according to the extent the wheat is killed—and then the ground's hould be well harrowed and rolled.

The thax seed ripens with the wheat, the flax and wheat, of course, are cut and bound up together, and when threshed, the seed runs into the chess box, so that it is easily seperated from the wheat.

This practice of sowing flax seed on winter-killed wheat, has been tried to a considerable extent by farmers in Genesee county, N. Y and with profit. The writer cannot state particularly what has been the yield, except that he knows of one case, in which the farmer got ten bushels of flax seed, and at the same time six bushels of wheat, on ground where he had a crop of corn the year before.

Editors in the State, who are disposed to encourage the raising of flax seed, would doubtless do the farmers a service by giving currency to what I have communicated.

PROCEEDINGS OF THE BOARD OF SCHOOL Mr. WEBSTER AND NEW JURSEY LEGIS-COMMISSIONERS. The Janesville Gazette copies our paragraph in relation to Mr. EDWARD H. BROADHEAD'S Extraordicary Speech of Commodore Stockton probable appointment as Chief Engineer of the Milwaukce & Mississippi Rail Road, and The Newark Advention contains the particulars of the reception of Mr. Webster by the New Jetsey Legishture, last Frainy, March 26th. Among the proceedings, the most striking feature was the speech of Com. Stockton, now United States Senator from New Jersey. Considering that the Commodore is a democrat, and that he took serious offence at Gov. Seward's Non Intervention speech—his remarks upon the Tariff, and in regard to Washington, are most surviving and remarkable. He is a bold man, and quite dispessed to "lack up a 10w;" and his new position so strongly defined, koks towards the White House thro' Pernsylvania Avenue. We give the larger portion of his apacch—Buf. E.:

the downfall of republican government. The powers of the general government should never be stretched. Everything possible should be left to the direction of the States. Its powers should never be elongated or spread out, but its operation should be confined within the compass of that excret volume, the Constitution. Our effort should be to disembarras and relieve the Government from the opportunity of expenditure.

I am deeply obliged for the compliment of calling on me, and the attention with which you have listened to me. I bid you farewell.

Distarssing Death.—We learn from a gentleman direct from the Pinery, that Mr. Orlando McMillar, of Union, Rock Co., was burned, ito death at Plover, Portage county, on Monday last. He had been in the Pinery making shingles; went into his shanty on Monday last, took off his boota and sat down to dry his feet. In this position he fell asleep, and while thus situated, the fire found its way into some shavings and the shanty was immediately destroyed, and Mr. Me. Millan perished in the flames—He was some 23 or 24 years of age, or good character, and has left a wrife and one child, with numerous friends, to mourn his untimely fate.—Median Express.

The Adjournment—A resolution passed both Houses of the Legislature yesterday, to adjourn on the 19th instant, and this will no doubt be the day that the adjournment will take place. A large, amount of business yet remains to be done, but both houses work with commendable industry and zoal. The members are extremely anxious that the work they were ent have to do, shall be done and well done before they leave it. No Legislature has worked with more industry, or with more apparent determination to act for the best interests of the State, than the present one; and we trust that its action will be such as will find an universal approval from the people,—Madizon Express.

Mr. Broadhead has since been tendered and accepted the appointment. The recent change i an auspicious one, and the prospects of the road are now of the most encouraging character. --- Wлянихстом, -April-6.

The Whig Senators have consulted as to the ime and place of holding the next National Conention.

A committee was appointed to confer with a a commune was appointed to comer with a similar one in the House.

It is said that their preference is in favor of Philadelphia, as the place, and July 1st as the Commodore Stockton's Speech.

This is a proud day furthose hore assembled, and New Jersey. I teel it as a New Jerseyman—as a man—as a patriot and a christian. When ever I contemplate Mr Webster, my heart goes up in devort aspirations to heaven, that it has endowed one of our species with such virtue and mitellect. It is not simply for his manly form, that noble brow which seems placed there as a crown by the Almighty, but the virtues of the man. I have known him for thirty years; I have seen him sitting among the wise and good in the councils of the nation. I have set as a boy and heard the words of wisdam falling from those lips, which I deemed inspired. And I say it before this assembly, and before the world, that if there is a patriotic heart in any man, that heart is in the body of Mr. Webster. I have heard him, at various times, discourse of public affinisin private, and I have never heard a word that might be construed against his country or her interects, or the should not emanate from a great and me.

2000 CONF. TELLIS.

Milwaukee, April 19, 1882.

DAILY SENTINEL.

By Last Night's Mail.

Washington, April 6.

SENATE.—Mr. Douglas presented a potition from Henry O'Reilly, proposing to establish a line of communication, by mail and telegraph from the Mississippi river to the Pacific ocean.

Mr. Douglas said the petitioner did not ask money, or a donation of land, but simply that his line of Telegraph may be protected by military posts by the government: and as military posts have been authorized in that territory, he asks that, instead of being placed in large bodies, that they be put in sections, twenty miles apart; and that detachment from each post carry the mail. that detachment from each post carry the mail, and by telegraph, the mail and emigrants could be protected: if the government agrees to do this, the petitioner thinks that in two years from this time, he can publish the European news on the shores of the Pacine in two weeks from Liverpool.

Another Terrible Steamboat Explosion. Lexington, Mo., April 9.

The steamer Saluda, bound for Council Bluffs exploded at this place to day.

Boat total wreck. She was an old boat—boilers been in use several years.

She had on a large number of Mormons. All the officers killed and inissing except 1st clerk and mate. About one hundred lives supposed to be lost.

Kossuth at Nobile. Mobile, Ala., April 5. Kossuth has had a most enthusiastic reception here. The meeting was large and unanimous, and many of the most distinguished Alabamiams took part in the reception. The course of Senator Clemens was most emphatically disarrowed. It is uncertain when he will be in New York. He has already received a large sum of money in aid of his cause.

Ohlo River. Pittsburg, April 6. The river is rising with great rapidity, with twenty-three feet water in the channel. At Browneville there is fifty feet water in the channel and with think they were the control of the nel, and still rising, the water is within four feet of the bridge at that place. The Alleghany has

commenced rising very impidly. Pittsburgh, April 7 The river is still rising, with twenty-four feet water in the channel. 'Che weather is cold, cloudy and damp.

The river is still rising at Brownsville, with fifty-two feet water in the channel.

FRETHER NEWS ABOUT THE EXPLOSION OF THE GLENCOZ—One Hundred and Fifty lives lost.—The following additional particulars of this horrible catastrophe, we clip from telegraphic dispatches to the Buffalo Commercial Advertiser:

A later despatch informs us that not less than one hundred and fifty lives have been lost by this awfol calamity. The scene is described as heart rending in the extreme. When the explosion took place, the boat was completely rent saunder and human bodies, mangled and whole, and pieces of the wreck flew up a great height into the air.

Numbers were seen straggling in the water for a few instants, whose wounds were such that they soon sunk to rise no more.

few instants, whose wounds were such that they soon sunk to rise no more.

The passengers and crews of the other boats at the landing crowded to the sides of their ressels in order to see the arrival of the ill-fated Glencoe. Many of them were killed and a great number terribly injured. The shricks and wailings of the wounded—the red glare of the fire and the consternation of the surrounding crowd beggars description. It was an awful scene.
The names of the passengers on the Glencoor those on the boats who were killed and wounded, are not yet ascertained.

THE STEAMER OHIO.-We clip the following from the Cleveland Plain Dealer of Thursday,

when she left Eric, one week last Friday. Sha got into the ice. On Saturday the milk of their coffee came up missing; on Sunday their butter on Monday a general shortness, and bread with salt beef, with two meals per day, were ordered.—The weather was wintry cold, and over a lundered to sleep on the floor and tables without covering. Last Friday some hundred went ashore, and scattering ones followed for several days, until yesterday but few bosides the crew were left aboard, and these women and children; sense of whom are sick. The bont is about five miles from shore, and twenty-eight below Eric. The ice is as compact about her as in mid-winter, and as far around her as the eye can see." "The Ohio had some four hundred passengers

and as, far around her as the eye can see." The Ice.—The ice continued to run freely in the river during the day yesterday, and Lake St. Clair must be nearly free by this time, The Fashion, in coming up yestorday, encountered much ice in the river, and was somewhat delayed by it. NEW GUIDE, OVERLAND ROUTE TO CALIFORNIA.

THIS work is compiled from notes undo on the Journey for the express purpose of farmishing a correct and reliable Guide Bookto the over-land embrant. The want of sucha work has been soverely felt by all who have crossed the plains. Much audering and loss of teams have been occasioned for want of a knowledge of the distances from grass to grass, and from water to water, and for proper directions to find good camping places. This book contains addice upon all there points in fullying one to the best roads and short cuts, by fullowing which, much travel and labor man be saved.

The following is an extract from a letter written by Mr. J. P. Welsh, of Milwaukse, who made the overfault trip an 1951. He took with thin a copy officia work and says:

"In regard to the 'guide' you furnished me, it has proved very accurate, and been mishly depended upon, though we had Morimon and other guidely some quite minute and extensive. Even some persons, who had once crossed, asked for copies of part. For Saic by S. CHAPMAN, Sast Water St. and B. B. Billp, Wiccombin St. a. April 2. ad-2w

The character and standing of the Board of Directors is a guaranty that the mouse received will be safely preserved, and faithfully downed to the objects proposed. The progress of HEATH INSUANCE, within the past few years, in localities where its prheiples have been understood, and its beneficent results practically seen and fell, is unparabilled.

Men are literally binding themselves together to bear one anothers burdens. No lind of insurance can be so generally useful as that of Heath; for most people are dependent upon it as the explain which enables them to procure the mense of litelihood. Hence, when by disease or accident this is gone, all is gone; and olther an unpleasant dependence on friends, or poverty and pamperism, in the consequence. It is not presumed that accident or the ravages of disease can be presented; but by a wise forethought, a foundain may be provided, which, when the hand of affliction does come, will subset its aspectities, and secure a comfortable support for jourself or family.

Conditions of Membership.

A Cantificate or Membership will be forwarded

A Convision of memorania.

MISCELLANEOUS. G. GRÆSSLE'S PRESSED, FIRE-PROOF TILING. CERTIFICATES OF RECOMMENDATION.

DY the present lattest my entire satisfaction with the proof of my house, covered with the presed, fire-proof file, inverted by Mr. Greessle having found them perfectly secure during mow-storins, rains, wind and intersecoil. I hereby take occasion to recommend said root covering to every house-builder, inviting them to satisfy themselves by occular inspection of the excellent guality of the same.

Mitwaukee, Feb. 3, 1852. The above, found true in every respect, as to the roof of phouse, covered with the same tile, invented by Mr. AUGUST RRUG,
Brewer, Chesnut-rt, 2nd ward.

Brewer, Chestaut-st., 2nd ward.

The undersigned, having carefully examined the presed roofing Tiles, invented by Mr. Graevie, have found them perfectly asswering the purpose intended. Their practical and expanience construction recommend this kind of Tile, not only as a fire-proof and perfectly water-proof covering, but above all for its durability. The ridges and clanness not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another victue, vic. that of dispersing with replara. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

The Graestle:—I have examined the Roofing Tile matchy you, and have no hesitation in recommending the matchy as after-proof roof.

from which the above cut was taken. By it we can take the exact shape, and unoringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great indvantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to seal and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Cash System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the externe low pince of \$425; surpassing any \$5 Hat sold in this city. Our Hats are all manufactured by curselves, and in offering them to our customers, we do so, with the confident assurance, they are all we'recommend them to be, we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see "Conformateur."
